Enameling Plant Dedication Held

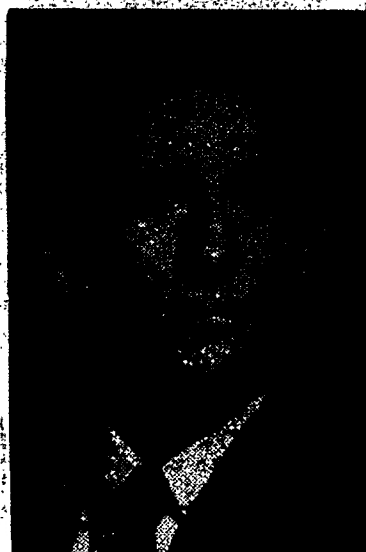

(by Caroline Klefer)

A golden key to the City of Bay St. Louis was presented E. M. Brignac, Sr., President of Industrial Electric, Inc., by Mayor John Scalfide, at formal dedication ceremonies of the Enameling Division Plant, held Wednesday morning on the grounds of the imposing, newly erected plant located on Central Avenue.

As he presented the key, Mayor Scalfide honored Brignac by naming him one of Bay St. Louis' first citizens, and lauded him for his diversified civic interests in the community during his years of residency.

Governor Ross Barnett, who flew from Jackson for the occasion, addressed the several hundred persons present. In his speech the Governor emphasized the growth of the state during the past several years attributing much of the development to industrial ventures which have moved in. He said that Bay St. Louis was fortunate in that Industrial Electric, Inc., was one of the soundest industries to expand into Mississippi, praised the fine local plant, and predicted increased economic benefits for the area as a result of this installation.

As Master of Ceremonies, Mayor Scalfide introduced notable guests including Secretary of State Heber Ladner, John Lumpkin, Jos. Bullock, Director of the A & I Board, A. J. Watson, President of the Mississippi Power Company, R. G. Hubbard, President of the County Board of Supervisors, Mayor Garfield Ladner, Waveland, Mayor Francis Hursey, Pass Christian, Mrs. C. B. GAS REFUNDS NOT FOR INDIVIDUAL USERS SAYS CITY OFFICIAL

An article appearing in a New Orleans daily newspaper on Thursday of last week, reported that "Refunds totaling \$35,889,307 from United Gas Pipeline to customers in Louisiana, Mississippi, Alabama and Florida had been ordered by the federal Power Commission."

Among other Mississippi cities, Bay St. Louis was listed as receiving \$25,813.

Several subscribers of the Hancock County Eagle called and asked whether we knew if this would be distributed to the individual users of gas in the Bay St. Louis area. We immediately contacted one of the City officials and were told that since the City of Bay St. Louis had absorbed the rate increases (seven in all) instead of charging them to the consumers, the refund was automatically returned to the City treasury, where it rightfully belonged, and not to the consumers, whose rates have never been increased.

Although this news item just appeared in the daily press, the City had received this refund several weeks ago.

Hancock Resident Held In Shooting

A Hancock County resident, is being held in the county jail on charges of assault with intent to kill in the shooting of his nephew.

Sheriff Gerald V. Price reported Artis Dedaux, 65, was arrested at 11:25 p.m. Sunday and charged with shooting Herman Shaw, 35, with a .22 caliber pistol.

According to Price, Dedaux has been residing with his brother-in-law and sister, Mr. and Mrs. Purcell Shaw, on their dairy farm near Crane Creek Bridge.

Herman Shaw, son of the Purcell Shaws, was apparently shot about 5:45 p.m. Sunday at the farm after an argument between him and his uncle, Price said.

Dedaux fled after the shooting, Price added, and was not picked up until six hours later.

The injured man was taken to a hospital in Poplarville and was later removed to the Forrest County General Hospital in Hattiesburg.

Price reported, Shaw's mother told officers her son was shot twice in the back, one bullet lodging in the hip and the other in the right shoulder. Dedaux was quoted by Price as saying he fired after being struck by Shaw in the barn, and later at the rear of the residence where the shooting took place.

Harrison County sheriff's deputies, county road patrolmen and constables joined Hancock sheriff's office in the search for Dedaux. He was arrested, Price said, about a quarter of a mile from the farm when he was spotted lying by the roadside by Deputy Sheriff Gerald Favre and Beat Three Constable Leslie Dedaux.

The initial investigation was handled by Chief Deputy Sheriff Lander Necaise, pending the arrival of Sheriff Price at the scene. Deputy Gerald V. Price Jr. assisted in the investigation.

The 22 caliber pistol allegedly used in the shooting was found in Dedaux's possession when he was apprehended, Price reported. The weapon, a nine-shot pistol, held eight live rounds and the shell casing of an expended round, Price continued.

Dedaux, Price said, told officers he loaded a new round in the weapon after leaving the farm.

Price said Dedaux is being held in the county jail awaiting conferences with the district attorney's office. He said bond has not been set, pending the outcome of Shaw's condition.

DEDICATION CEREMONIES HELD

Dedication ceremonies were held on Wednesday, highlighting the formal opening of the Branching Division of Industrial Electric's new plant in Bay St. Louis. Principal speakers for the memorable occasion were Hon. Ross Barnett, Governor of Mississippi and Hon. John A. Scaife, Mayor of the City of Bay St. Louis, among others.

During the course of his speech, the Governor emphasized the fact that industrial ventures of this kind, which have moved into Mississippi, have been responsible for the gradual and steady growth which the state has been experiencing.

Mississippi has the potential and has repeatedly issued nation-wide invitations to industry to locate within its borders.

We, in Bay St. Louis are proud to welcome Industrial Electric into our midst, and proud to claim its president and founder, Mr. Edmond M. Brignac, Sr. as a permanent resident.

We feel and hope that the success of this first industrial venture in this area will encourage others to locate here and that Bay St. Louis will eventually become known as an industrial city.

Several hundred turned out for the dedication and besides being shown through the plant under actual working conditions, were also treated to a wonderful and delicious buffet luncheon. Truly it was an occasion to be remembered and one which we hope will be repeated as other industries decide to locate within our borders.

Local weather, perfect weather and warmer seems to have swept the fresh water fish to rest by having plenty of green trout and perch are being taken everywhere. Several good catches were reported over the weekend.

Some of the largest white perch and bluegills are being caught on both fly rod and with worms. The head of most basses are about fishing grounds for these fish.

David Carter, one of our fishing partners while fishing in a private pond killed a cottonmouth moccasin which measured 4 feet 2 inches. David skinned the snake and is making himself a trophy.

Moccasins are plentiful at this time of the year. They are poisonous as it pays to be on the lookout when fishing or out in the woods. The only good snake in my book is a dead one.

Glad to talk to a real good sportsman this week. He is none other than Mr. Jack Liverdage.

Have seen a number of quail lately. Looks like we will have a good season next year.

A new business has opened at Waveland known as the Waveland Seafood Mart, under the management of Patrick Toomey. Of special interest to fishermen is that the new business will sell ice at all times as well as drinks, shrimp and other baits. Location is on Sears Ave.

Glad to have met Carol Bourgeois, daughter of Mr. Ory Bourgeois, who will reign as queen of the Gulf Coast Deep Sea Rodeo, June 30 through July 4th. Miss Bourgeois has quite a record at Bay High School. She has attended for 13 years without missing a day.

Have almost gotten Dick Mestayer back to fly fishing. Dick is a good hunter and also does salt water fishing. Name the day, Dick!

Frogging is still good. Caught some more last weekend. Dark nights are ideal for this sport. Frog legs are a rare delicacy. Better try them.

Haven't heard much about soft crabs of late. This week should be tops for catching them. The tides should be low and the crabs should be giving. Ask those who go.

Blackberries are at their best right now. They are ripe and plentiful. Better go after them while the time is ripe also.

The boxing matches scheduled for Friday night at S.S.C. should be quite interesting. Better attend.

Alfred Gaspard says he is always busy but not too busy to help those with boat trouble. Alfred is a good boatman and has many years of experience.

Speaking of frogging, remember that there are closed areas in Louisiana, April and May. No closed areas in Mississippi.

STATEWIDE HEARING FOR MISSISSIPPI SPORTSMEN

The Cardinal is on his way to the Gulf Coast to preside at the annual convention of the Holy Name Society, which will be held at the local seminary, April 23-25.

Junior Sportsmen of the State This preparation for the time when today's youth will be responsible for carrying on the work of conserving, promoting, and managing the great natural resources of our state.

Let me urge every member of the Junior Sportsmen Club to attend if it is possible. There will also be an executive meeting to determine the final plans for a Junior Sportsmen Club summer camp following the public hearing.

A total of 15 million fish were reported killed by water pollution in the United States in 1961, the Public Health Service's Division of Water Supply and Pollution Control announced this week.

The new report shows that agricultural poisons led all known sources of fish kills during 1961, followed by industrial wastes. A total of 444 individual kills are represented in the summaries, many of them attributed to more than one source. The totals by categories follow:

Agricultural poisons: 75 reports accounting for 5,600,000 fish killed; industrial wastes: 150 reports accounting for a total of 2,900,000 fish killed; mining operations: 19 reports accounting for 1,100,000 fish killed; other sources: 60 reports accounting for a total of 184,000 fish killed; domestic sewage: 52 reports accounting for 162,000 fish killed; and 79 known source reports accounting for 5,800,000 fish killed.

Last year's report, released on June 30, showed a total of 286 reports received from 38 States and a total of 6,800,000 fish killed. Industrial waste led as source of kill followed by agricultural poisons in that report.

Only five States did not report any fish kills, either because they did not occur or were not of significant amounts. Total river mileage affected in the 1962 reports when given was 1,700 miles, in addition 50 miles of lake and bay shore lines, and 6,000 acres of lakes, reservoirs and bays.

LOOK WHAT'S HAPPENED TO THE OLD WATER WELL

Mostly it has been filled with rocks and tin cans. But the water well, or it's cousin, the spring, was as necessary as stovewood a few years ago.

Working and investing together, however, Mississippi people established Electric Power Associations through which they could supply themselves with electricity. Electric pumps and complete water systems for the farm, home and industry became a reality rather than a dream.

Without these Electric Power Associations, a majority of Mississippi's people living outside city limits would still be turning the windlass crank, pushing a pump handle or trudging to the spring for water. With them, they have made an investment for the future... each member of an Electric Power Association is a part-owner. Each time he pays his electric bill he is repaying a portion of a loan which made his association possible. And while he is repaying the loan, with interest, he is enjoying the conveniences electricity made possible.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

How Important is an Inch

Not long ago Genevieve was thirty-seven inches tall. Soon she'll be thirty-eight. Just how important is that next inch?

It's all-important! Without that inch her growth will cease.

Folks sometimes underestimate the importance of a Sunday in Church or Sunday School. What difference, they think, can just one Sunday make?

But every day of worship or religious instruction adds its inch to our spiritual growth. And whenever we neglect the soul's needs, then, temporarily at least, growth ceases.

Children, and adults, too, need to keep on growing spiritually. How different our world could be if all of us reached the spiritual maturity God wants men to attain.

A Sunday, like an inch, is important. Next Sunday is all-important for all of us!
